**PENNS GROVE HOUSING AUTHORITY
REQUEST FOR PROPOSALS
MORTGAGE COMMITMENT**

The Penns Grove Housing Authority (Penns Grove) is soliciting proposals from financing institutions to provide low interest financing relating to a RAD conversion. The funds will be used to provide for construction projects identified in a Physical needs assessment prepared for the Authority. The financing is for 153 units of affordable housing (the housing) located in Penns Grove, New Jersey and owned by the Penns Grove Housing Authority. This contract will be awarded through a “fair and open” process pursuant to N.J.S.A. 19:44A-20.4 et seq. Penns Grove Housing Authority is seeking low interest tax-exempt financing such as that which is provided to similar government agencies.

HOUSING COMPLEX

The housing units are located in Penns Grove, New Jersey. There are a total of 153 units that will receive rental assistance from HUD through a Section 8 project-based HAP contract. Available on the Authority’s web site is the June 30, 2024, audited financial statements of the Authority and the June 30, 2026 adopted budget. In addition, when requested draft pro forma and cash flows will be provided.

REQUESTED FINANCING

Penns Grove Housing Authority proposes to finance up to \$3 million for various capital projects. Penns Grove Housing Authority as management agent for the complex will be responsible for the oversight of the financing and capital projects. Through a RAD conversion a project-based housing assistance payments contract will be entered into. This contract provides a stream of rental income net of tenant payments from HUD through the Authority. All tenants must meet HUD income limits as required by the HAP contract.

Proposals are requested to provide financing for the construction and related financing costs at a tax-exempt rate of interest.

Each proposal must include the following information:

1. Description of the financing and rate of interest proposal.
2. Term proposed for the financing.
3. Estimate of all financing costs (Including not limited to Bank fees, Bank Counsel Fees, Bank Commitment Fees).
4. Listing of experience in this field of financing similar transactions.

The successful proposal will be selected based on review and consideration of the above information.

Proposals are due at the offices of the Housing Authority of Penns Grove on or before **1:00 pm, July 30, 2025**. Two original copies of the proposal are to be provided.

Questions regarding the proposal are to be directed to the Authority in writing by email. Requests for documents are to be directed to the Authority.

INSTRUCTIONS TO BIDDERS

I. SUBMISSION OF BIDS

The public advertisement shall include specific information, which can subsequently be expanded in general instructions. The specific information includes: who is requesting bids; what is being bid; how are bids to be submitted; where and when will bids be opened; is there a cost for specifications; where will bids be submitted; and will there be a pre-bid conference "*Notice to Bidders*")

Fees for specifications are at the owner's option. It is recommended that any reference be deleted if fees are not being charged. Fees are most often used to offset the costs of reproduction of plans and specifications (i.e., construction plans or engineering drawings) and cannot be used as a barrier or a way to limit the number of bidders).

Affirmative Action language shall be included in the advertisement. There is no exception to this requirement. "Bidders are required to comply with the requirements of N.J.S.A. 10:5-31 et seq. and N.J.A.C. 17:27."

If your contracting unit requires the use of pre-printed envelopes or labels, Section I, "Submission of Bids" would be the appropriate location for the additional requirement.

Honoring requests for bid withdrawal prior to bid opening should be dictated by local policy.

State law requires (N.J.S.A. 40A:11-23b) that bids shall be received at a specified time, date and place, unsealed and announced. Deviations to this standard are rare, fact sensitive, and narrow in the application of the statutory provisions of the law. It is strongly recommended that the owner consult with legal counsel on the application of the statutory provisions of law and reported court cases impacting N.J.S.A. 40A:11-23b.

It is generally acceptable policy that there be no determination of an award or rejection of bids after the bids is opened. Any information divulged at the bid opening is not a final determination and is subject to the final action of the governing body. If the bids are open at a governing body's meeting with the intent to award a contract, the bids should be carefully reviewed by the appropriate local officials to ensure compliance with all statutory, regulatory, and specification requirements.

Bids must be properly submitted and executed in accordance with the owner's instructions. Material deviations or alterations may be grounds for rejection. In *P& A Construction, Inc. v. Township of Woodbridge*, 365 N.J. Super. 164 (App. Div. 2004), it was concluded that N.J.S.A. 40A:11-23.2 should be construed as a legislative directive that a bidder's failure to submit any of the six mandatory items set forth in the statute shall automatically be considered a non-waivable defect. Any other bid defect is subject to case law criteria of materiality. See *Township of River Vale v. R.J. Longo Construction Co.*, 127 N.J. Super. 207, 216 (Law Div. 1974). In this definitive case, the court articulated two criteria for determining whether a bid defect constitutes a material and hence non-waivable irregularity:

1. Whether the effect of a waiver would be to deprive the municipality of its assurance that the contract will be entered into, performed and guaranteed according to its specified requirements.
2. Whether it is of such a nature that its waiver would adversely affect competitive bidding by placing a bidder in a position of advantage over other bidders or by otherwise undermining the necessary common standard of competition.

II BID SECURITY AND BONDING REQUIREMENTS

Bonding (N.J.S.A. 40A:11-21) traditionally has been used to protect a contracting unit dealing with a contractor. Contracting units have the option of requiring bonding for contracts with a value of less than \$100,000; they are required over that amount. However, building and construction contracts for all contracting units require sufficient surety as well as labor and material bonds (N.J.S.A. 2A:44-143). Bonding for non-construction projects will depend on how much risk and exposure the owner is willing to assume.

There is no standard for setting a performance bond as a percentage of total non-construction contract prices. N.J.S.A. 40A:11-22a mandates the percentage for construction and building contracts.

There are three important points to remember when considering bonding requirements: The surety company can be a great help in resolving difficulties that may arise between the contractor and the owner. Be sure that bonding is required in a sufficient amount. Be sure your specifications are written in sufficient detail so you can rely upon them in case of default.

Bond requirements depend on the nature and complexity of the work to be performed. Owners should review the appropriate statutes for their particular contracting units. Remember that all bond documents must be evaluated for their completeness and compliance. It is also important to note the primary purpose for each type of bond document required.

A bid guarantee is used to ensure that a bidder, if awarded a contract within the time stipulated, will enter into a contract and furnish the performance bond and, if required for a construction contract, the labor, material, and maintenance bond.

Owner should not accept a bid bond, which is for less than statutory 10%, not to exceed \$20,000.00. A non-conforming bid bond is a material defect and grounds for rejection of the bid.

An owner may accept the submission of a bid guarantee in the form of a certified check, cashier's check or a bid bond. If a bid guarantee will be required on an open-end unit priced contract, the owner should specify in the instructions to bidders the amount to be used as an estimate for determining the ten (10%) percent.

A consent of surety is an agreed upon written legal relationship between a surety and a contractor. If the contractor is awarded the contract, the surety will provide to the contractor a bond for the faithful performance of all provisions of the specifications and/or all matters relating to the performance of the contract. If the bidder submits a certified check or a cashier's check, consent of surety for a performance bond can still be required.

A performance (contract) bond is the surety guaranteeing to the owner the cost of completing the project in the event the contractor fails to do so. In an ideal situation, the owner is assured that it will obtain a completed project for the amount it agreed to pay. The amount of a performance bond on many projects equals the full contract amount, but it can be for less than the full amount. Frequently two bonds are required. One is to cover performance and the other is to cover payment of labor and material bills.

An Attorney-In-Fact is the holder of Power of Attorney granted by a surety company empowering the execution of a surety bond on behalf of the company.

N.J.S.A. 40A:11-22 allows a bidder to offer a personal (individual) surety instead of a surety (corporate) company. The owner may reject any bid if it is not satisfied with the sufficiency of the personal (individual) surety offered. It is important for owner to establish standards and procedures for the receipt of such personal sureties.

A labor and material bond is given by a contractor to guarantee payment to certain laborers and suppliers for the labor and materials used in the work performed under a contract. This liability may be contained in the performance bond.

A maintenance bond guarantees against defective work or materials. The bond cannot be longer than two years and can be less than, but not more than 100% of the project cost.

It should be noted that statutes require all surety companies to be licensed by the state in order to transact business as a surety. Current listing of licensed companies can be found at www.state.nj.us/dobi/.

III. INTERPRETATION AND ADDENDA

Any bidder requesting interpretation of the specifications should do so in writing. The owner may issue an addendum to the specifications.

Any vendor challenge to the specifications must be submitted in writing not less than three (3) business days prior to the scheduled bid opening.

No oral interpretation should be given to any potential bidder.

IV. BRAND NAMES, STANDARDS OF QUALITY AND PERFORMANCE

The use of “brand name or equivalent” in a bid specification allows a vendor to submit the brand named item or one that is equivalent to that item. The public contracts laws and regulations provide a procedure to follow when deciding to use “brand name or equivalent.” Use of these procedures encourages free, open, and competitive bidding as intended under the public contracts laws.

Before using “brand name or equivalent” in bid specifications, the following procedures shall be considered initially:

The contracting agent should consider the use of a specification based on a standard issued by a national or international testing or standards setting organization.

The contracting agent should consider using generic specifications available through commercial or non-commercial services.

The contracting agent should consider using a specification based on specialized programs.

If the above procedures are not used, a contracting unit can decide to use “brand name or equivalent” if the contracting agent knows that at least one equivalent exists. If the contracting agent does not know if at least one equivalent exists, the item is proprietary and the rules for use of proprietary items must be used. [N.J.S.A. 40A:11-13(d) and N.J.A.C. 5:34-9.1 and 9.2].

Prior to advertising for receipt of bids that includes proprietary goods or services, the contracting agent or purchasing agent shall certify in writing to the CEO an explanation of why goods or services are of a specialized nature and necessary for the conduct of the affairs of the local contracting unit. The resolution shall include a description of why goods or services are of a specialized nature and necessary for the conduct of the affairs of the local contracting unit. In both these cases, when making the explanation, do not paraphrase the statute or regulations, be precise as to the situation being addressed [N.J.A.C. 5:34-9.1(b) and (c)]

If the “brand name or equivalent” is used and a bidder proposes an equivalent, the burden rests with the bidder to demonstrate equivalency through the submission of documentation. Mere submission of company or product literature is unacceptable and can be used as a basis for rejection of the claim of equivalence and the bid.

Pre-approval or pre-qualification of equivalent products by the contracting unit before submission of bids is an anti-competitive practice and not allowed.

This does not absolve the owner of the need to determine compatibility and suitability.

It is recommended that inspection be made upon delivery, installation or performance of service. Owner should serve written notice to the vendor/contractor upon discovery of defect or non-performance, a copy of which should be forwarded to the surety if a performance bond has been required. Request for payment should not be processed until the matter is satisfactorily resolved.

V. INSURANCE & INDEMNIFICATION

Insurance requirements and dollar limitations are determined by individual specialized needs of the owner and may vary by type of project or service. Consult your local risk manager or insurance consultant for current or required limits. Such requirements must be reasonable and related to the estimate of exposure.

Indemnification and insurance should not be confused with bonding coverage.

VI. PRICING INFORMATION FOR PREPARATION OF BIDS

The owner can authorize the successful contractor to use the contracting unit's tax identification number to eliminate sales tax liability to the contractor if the contractor is purchasing items to be used for the contracting unit's project that is otherwise exempt from sales taxes.

If the owner waives the cost of permit or other fees, it should be noted in this section of Instructions to Bidders.

"FOB destination" should be the preferred method for local contracting units.

When "free on board (F.O.B.) shipping point" is used, the title or ownership of the goods passes from the seller to the buyer (owner) at the moment of delivery to the carrier. Goods are put into the hands of the carrier or loaded in the carrier's vehicle free of expense to the buyer, with delivery to the carrier constituting delivery to the buyer. The buyer must pay all freight and incidental charges required to effect delivery and bears the burden of recovering the value for loss or damage incurred after delivery to the carrier.

When "F.O.B. destination" is specified, title or ownership of the goods passes to the buyer (owner) upon delivery to the owner's designated point. The seller must pay all freight and incidental charges required to effect delivery and is responsible for any loss or damage up to time of delivery.

VII. STATUTORY AND OTHER REQUIREMENTS

Statutory requirements may differ according to the type of contracting unit. While certain statutory requirements are not found specifically in purchasing laws, they are requirements, which must be addressed in your specifications.

The Affirmative Action rules require a careful reading and any questions concerning compliance should be directed to New Jersey Department of the Treasury, Division of Contract Compliance & Equal Employment Opportunity in Public Contracting .

The provisions of Title II of the Americans with Disabilities Act of 1990 (42 U.S.C. S121 01 et seq.) prohibits discrimination on the basis of disability by public entities in all services, programs, and activities provided or made available by public entities, and the rules and regulations promulgated by the law are made part of the contract. Bidders, by reading the form, are indemnifying, protecting and saving harmless the owner and its employees from and against any and all suits, claims, losses or damages. "*Americans with Disabilities Act of 1990.*")

The Prevailing Wage Act and Regulations should be reviewed for current requirements. A local unit may obtain an electronic application for official Prevailing Wage Rate Determinations by contacting the New Jersey Department of Labor at the website in "*Request for Prevailing Wage Determination.*"

The certified payroll records shall be submitted to the owner not later than 10 days after each payroll period.

The Stockholder Disclosure Certification does not require that an individual submit proof of ownership. However, it is recommended that your form contain a signature block to avoid the appearance of noncompliance by the bidder. "*Stockholder Disclosure Certification.*"

Right to Know (RTK) Chemical Labeling: New Jersey manufacturers are required to include material safety labeling on all chemical containers. To obtain containers with New Jersey RTK labeling for products manufactured outside of New Jersey, a bid specification can include a clause requiring New Jersey RTK labeling as a term or condition of your contract. Owners must also ensure that all containers, which are stored at their facilities by contractors, display RTK labeling. The options and exclusions from labeling are found in New Jersey Right to Know Act regulations at (N.J.A.C. 8:59-5.5 and 5.6). General information and labeling assistance for bidders is found on the New Jersey Department of Health and Senior Services Right to Know Program website at: www.nj.gov/health/eoh/rtkweb/

A Non-Collusion Affidavit is not statutorily required. If required by the owner, bidder non-compliance may be cause for rejection. ("*Non-Collusion Affidavit.*")

Pay to Play: N.J.S.A. 19:44A-20.27 establishes a disclosure requirement for business entities. It requires that, when a business entity has received in any calendar year \$50,000 or more in public contracts with public entities, it must file an annual report with the Election Law Enforcement

Commission (ELEC). The report shall disclose any contribution of money or any other thing of value, including an in-kind contribution, or pledge to make a contribution of any kind:

- To a candidate for or the holder of any public office having ultimate responsibility for the awarding of public contracts, or,
- To a political party committee, legislative leadership committee, political committee or continuing political committee.

The report, starting in January 2007, will include all reportable contributions made by the business entity during the 12 months prior to the reporting deadline. ELEC will be promulgating a form and procedures for filing. ELEC can also impose fines for failure to comply with this requirement.

While the local unit has no role in this process, it is recommended that all bid or proposal specifications and contracts should include language notifying business entities of their potential obligation under the law.

VIII. METHODS OF AWARD

The provisions in Section VIII describe methods of award. The owner must carefully determine in advance which method will be used and clearly state it in the specifications.

IX. CAUSES FOR REJECTING BIDS

The provisions in Section IX describe causes for rejection. Any statement reserving the right to reject all bids for reasons other than those statutorily stated is prohibited.

X. TERMINATION OF CONTRACT

Owner should carefully develop and review appropriate language with its attorney. Language provided in this document is only for guidance.

XI. PAYMENT

Payment will be made in accordance with the owner's policy and procedures.

Except with respect to affectional or sexual orientation and gender identity or expression, the contractor will ensure that equal employment opportunity is afforded to such applicants in recruitment and employment, and that employees are treated during employment, without regard to their age, race, creed, color, national origin, ancestry, marital status, affectional or sexual orientation, gender identity or expression, disability, nationality or sex. The contractor and the _____ of _____, (hereafter "owner") do hereby agree that the provisions of Title 11 of the Americans With Disabilities Act of 1990 (the "Act") (*42 U.S.C. § 12101 et seq.*), which prohibits discrimination on the basis of disability by public entities in all services, programs, and activities provided or made available by public entities, and the rules and regulations promulgated pursuant there unto, are made a part of this contract. In providing any aid, benefit, or service on behalf of the owner pursuant to this contract, the contractor agrees that the performance shall be in strict compliance with the Act. In the event that the contractor, its agents, servants, employees, or subcontractors violate or are alleged to have violated the Act during the performance of this contract, the contractor shall defend the owner in any action or administrative proceeding commenced pursuant to this Act. The contractor shall indemnify, protect, and save harmless the owner, its agents, servants, and employees from and against any and all suits, claims, losses, demands, or damages, of whatever kind or nature arising out of or claimed to arise out of the alleged violation. The contractor shall, at its own expense, appear, defend, and pay any and all charges for legal services and any and all costs and other expenses arising from such action or administrative proceeding or incurred in connection therewith. In any and all complaints brought pursuant to the owner's grievance procedure, the contractor agrees to abide by any decision of the owner which is rendered pursuant to said grievance procedure. If any action or administrative proceeding results in an award of damages against the owner, or if the owner incurs any expense to cure a violation of the ADA which has been brought pursuant to its grievance procedure, the contractor shall satisfy and discharge the same at its own expense.

The owner shall, as soon as practicable after a claim has been made against it, give written notice thereof to the contractor along with full and complete particulars of the claim. If any action or administrative proceeding is brought against the owner or any of its agents, servants, and employees, the *owner shall* expeditiously forward or have forwarded to the contractor every demand, complaint, notice, summons, pleading, or other process received by the owner or its representatives.

It is expressly agreed and understood that any approval by the owner of the services provided by the contractor pursuant to this contract will not relieve the contractor of the obligation to comply with the Act and to defend, indemnify, protect, and save harmless the owner pursuant to this paragraph.

It is further agreed and understood that the owner assumes no obligation to indemnify or save harmless the contractor, its agents, servants, employees and subcontractors for any claim which may arise out of their performance of this Agreement. Furthermore, the contractor expressly understands and agrees that the provisions of this indemnification clause shall in no way limit the contractor's obligations assumed in this Agreement, nor shall they be construed to relieve the contractor from any liability, nor preclude the owner from taking any other actions available to it under any other provisions of the Agreement or otherwise at law.
